# THE MEN AND THE HOURS.

Progress of the Great Labor Movement.

The Coach Blacksmiths, Steam Fitters, Organ Builders, Wood Workers, Tin and Slate Boofers, Planers and Moulders, Ciothing Cutters and Shirt Cutters.

A little more enthusiasm was manifest, among the movers in the eight-hour reform yesterday New organizations have given it an impetus, and few retiring crowned with success have cheered on the still struggling and almost despondent ones. organization referred to in the HERALD, some days makers, who constitute a branch of that League, have seceded, and many of them have returned to work under the old system. It seems they demanded the financial managers of the central organextion, when the latter were engaged in paying the strikers of their body on Saturday, an allowance of \$20 per week for each man in their Union. The Finance Committee could not, with their limited organs of vision, perceive the justice of the claim, alleging that the sum asked for was greater than they, the frame makers, could surn when working

tion of the firm of Jackson Brothers, employing several hundred men. They mow claim that only one of the larger shops reinses to grant their demand. Fixeen hundred of them are reported as now weeking under the eight-hour rule.

The aphoisterers have ceased to report the general mass of employers as having acceded to their terms, and now talk bitterly of many of them as having discharged the men of the Union. They claim to have written agreements from the firms ailuded to, and these, they say, have been repudiated.

A despatch received from the cabinet makers of Philadelphia announce their determination to strike on Monday next. The horsesteers have many of them returned to work, as only a few of the street car and stage companies by whom they were employed resist them. More than one-third of the iron moulders, who

number about twelve hundred, are working but eight hours, and it is generally believed that the system will be adopted by their employers volun-

tarily.

Among the trades reported as about to strike are all the wheelwrights, blacksmiths and workmen in the sewing machine factories.

The Women's Typographical Union is considering a movement for pressing the adoption of the new order of things, and will undoubtedly unite in demanding the reform.

Meeting of the Steam Fitters.

A meeting of the steam fitters was held last evenng at Putnam Hall, Third avenue. The meeting was called for the purpose of organizing in order to co-operate with the Amalgamated Society of Machinists in the impending strike. Delegates were appointed for that purpose, and after an address from a member of the Machinists' the meeting suparated.

The Shirt Cutters to Strike. The majority of the shirt cutters of the city met last evening at 91 Walker street, and effected temporary organization for the purpose of demand-Martin Brubaker: the secretaries, Messrs. Joseph C. Darcus and Adolph Wald; the treasurer, Edward Knickerbocker. About the total number of cutters in the city is one hundred and fifty; the number of in the city is one hundred and fifty; the number of shops, forty. Representatives from most of the shops were present, and these stated that no difficulty whatever would be experienced in getting the eight hours for a day's work. It was resolved to demand the eight hours on Monday next. The full number of men working in each shop are to act as a committee to announce the determination of the meeting to the bosses, and a committee of three was appointed to look after those shops that had no representative present inset evening. A check for \$50 was received from Meyer Finz, of Chambers street, to help the men in establishing the organization.

The result of the clothing cutters' strike has been a great success. At the meeting held on Saturday night preliminary to the strike it was an nounced that more than three-fourths of the firms ed in the clothing trade had acceded to the demands of the men, and in consequence only about 200 men left off work on Monday morning. On Monday evening all the firms had acceded, with the exception of one or two, which gave in yesterday, so that the strike may be pronounced over. The Union numbers more than one thousand men, the principal part of whom are Germans, and in the struggle they have stood to each other with the greatest harmony and union. The custom cutters have not struck, as it would be difficult to control what portion of the tade in the busy season.

The coach blacksmas and finishers held their second meeting in a secret session at Germania hall, third avenue, last hight. They claim a membersup aiready of 500 and expect to doubt it by Saturdy night. It is stated hat there are 5,000 men working in this day branc, of mechanica in this city. The Workers in Wood. The wood workers amalgamated themselves at Academy Hall last night. They arrived at certain conclusions, the sum of which seemed to be that if their employers refused to grant their demands they would refuse towork shother day.

The Organ Builders. The organ builders, to the number of sixty, assembled at Teutonia Hall last evening, for the purpose of organizing an Eight-hour league. Mr. Sea-man was elected temporary chairman, Mr. P. Lord secretary and A. Hecker treasurer. On motion it was agreed to adopt the name and style of the Church Organ Builders' Protective

On motion it was served to adopt the name and style of the Church Organ Builders' Protective Dhion.

Mr. Kearkey addressed the meeting, urging that the employers should be given an opportunity to complete their contracts before any decided issue should be made in the effort to establish the eight-bour system.

Mr. Monse moved that the Union should strike at once, and Mr. Sourk moved to give the employers three mouths' notice.

## BEACON PARK.

First Day of the Spring Trotting Meeting.

Fine Attendance Phil Sheridan the Winner of the 2:35 Purse.

Boston, June 4 1872. The first of the spring trotting meetings to be beid in New England this season was begun at the Beacon Park this afternoon in the presence of quite a large number of spectators. The entries for the various purses comprise some well known horses, and among the gentlemen upon the quarter stretch were many from New York and more distant places. horses that never beat 2:35, and the greenbacks offered amounted to \$800. The entries were Sawyer's cheseuut gelding Royal Mike, Sargent's brown stallion Phil Sheridan, Bigley's chestnut mare Fanny, Cudney's bay gelding Aliston, Brown's gray Prince, Beckler's bay getting Charles Dickens, Brock's sorrel mare Josephine, and Goldsmith's bay stallion Abdallah. The last three did not start, bay stallion Addalian. The last three did not start, a fact that made the transactions at the pool box lively, although Sheridan had shown fast time both here and in Potsdam, from which place he halls. Sheridan was the favorite, Bill second choice, the

the front and Black Prince to the rear—the latter breaking badly, and at once losing all chance to get even a place in the summary. At the quarter pole, Fanny had two lengths the best of it in the excellent time of 35½ seconds, but Bill was gradually drawing up to her; the pace was too week for the mare and she was forced off her feet, Bill leading to the half in 1:16½, Sheridan taking second place, Allston and Mike two or three lengths in the rear. On the last quarter Sheridan was forced well up to Bill and the pace was too fast for the gray, who broke just inside the distance and did not become settled until he had crossed the score, beating Sheridan half a length, but the heat was given to the latter in 2:31½. Prince distanced.

Second Heat—The odds were three and four to one on Sheridan, and the showing made by Bill gave him friends to take the odds. A very good start was made on the third trial, Fanny taking the lead as they went around the turn, Allston in the second place, Sheridan thrift, then Bill and Mike in the rear. Sheridan trotted well, and before the quarter was reached had his nose to Fanny's wheel, the time being thirty-six seconds. Up the straight side Sheridan continued to force the pace, and gradually got on even terms with the chestnut mare. The latter indulged in a slight break, but they passed the half with no daylight between them in 1:16. Bristol was third, a length away, and about that distance separated Allston and Mike. The race home between Sheridan and Fanny was an excellent one; but the mare was forced to a break, the stallion beating her half a length in 2:34½, Bill second, Mike third, Allston fourth.

Third Heat—On getting the word Royal Mike went to the front at the first, followed by Bill, Fanny, Sheridan and Allston, in the order named. Mike led a length at the quarter pole, in thirty-six and a half seconds; Sheridan second, having passed the mare and Bristol Bill white making the turn. Before reaching the half sheridan passed Mike, and had half a length in the sorder named.

The Spring meeting of the Eastern Dutchess Association opened here to-day under the most Association opened here to-day under the most favorable auspices. The track was in excellent condition and there was a fine show of horses and some good tretting in the marning. After dinner a heavy rain came on and prevented further trotting. Some of the best horses in the country are here. The races are to continue three days, and during that time special trains will be run on the Harlem and connecting road.

In the four-year-old race, for a purse of \$300, Edwin Thorn's stallion Wild Cats won. Time, \$306; 3.02; 2:58; 3:05. There was a high wind blowing.

which was wrecked upon the Irish coast, went to pieces on the 20th uit. Only a portion of the cargo was saved. It appears from the accounts by the latest English mail that at about 4:30 on the morning of May 17, the weather being somewhat hazy, the Tripoli drove heavily upon the Southwest Rock, near the Tuskar Lighthouse, the rock penetrating her midship compartment and admitting the water, which rapidly filled the engine room. The ship, which was going full speed at the time, was of firmly fixed on the rock that it was vain to attempt to get her off. The rock was of conical shape, and was situated in a very exposed position, where a high sea is almost constantly beating upon its sides. SHIP ALASKA, at Boston 3d from Calcutta, brought into port the crew of the British bark Calabar, from Pernambuco for Queenstown, which vessel was abandoned in a sinking condition May 4, lat 0 13 S, the water being over the between decks.
